Instructions for AbleTrend Add-On to NinjaTrader 7

(Updated November 6, 2015)

- 1. These instructions are specifically for Ninja Trader 7. We have stopped updating and are not doing any issue fixes and support for the AbleTrend Add-on for Ninja Trader 7. If you agree to these terms, you may proceed with the instructions.
- 2. Install AbleTrend components for NinjaTrader:

Click on the link and install, <u>http://www.wintick.com/msiweb_ninja/setupANT7.exe</u>

When you finish, you must check "Launch" to run AbleCom installation.

3. Add AbleTrend indicator's script to the NinjaTrader Platform

Open NinjaTrader 7.0 > File Menu > Utilities > Import NinjaScript...> Go to C:\Program Files (x86)\AbleSys\AbleCom folder, select AbleNinja.zip > OK.

4. Select Data Source for NinjaTrader

From NinjaTrader's Control Center > Tools > Account Connections... > Add your data source (such as eSignal, TD Ameritrade etc.) or select existing data source.

5. Connecting Data

From NinjaTrader's Control Center > File > Connect > select a data source (such as eSignal)

- 6. Insert AbleTrend indicators to chart of the NinjaTrader:
 - a) Open chart: File > New > Chart.

🔶 Co	ntrol Center - Default	-

Troubleshooting:

Ninja Trader version only works for Windows operating systems: Windows Vista, Windows 7, Windows 8, and Windows 10. It will not work on any version of Windows Server.

Removing AbleTrend add-on from NinjaTrader

(1) Remove AbleTrend from NinjaTrader: from its Control Center > File > Utilities > Remove NinjaScript Assembly > Remove AbleNinja

(2) Close Ninja Trader

(3) Remove AbleCom from your system: From the Windows Control Panel > Programs and Features > Remove/Uninstall AbleCom

Remove NinjaScript	Assembly	x
AbleNinja
