Instructions for Data Module with Open E-Cry (OEC)

Updated 6/1/2020

1. Download and install the required OEC API from this link, http://wintick.com/files/GAIN_GFAPI_COM_4.0.1.39.exe
2. Download and install Gain Trader first from: <http://futures.gaincapital.com/education-center/downloads.cfm>

Sim account is available from here:

<http://futuresonline.com/software/futures-trading-demo.cfm>

3. Enable AbleTrend under 3rd Party Software:
Access the account portal – <https://myaccount.gainfutures.com>

Log in to the website, click on **Other Links**. Then click **Manage 3rd Party Software**. Click on the + sign to enable AbleTrend.

The screenshot shows the 'Other Links' menu on the left and the 'Third Party Software' management page on the right. The 'Third Party Software' page includes a table with columns for Software, Setup, Demo, Live, and Disable. The 'Disable' column contains minus (-) and plus (+) icons to toggle the status of the software.

Software	Setup	Demo	Live	Disable
AbleTrend				
Collective 2				
eSignal				

** If you did not get an account directly through Futures Online, the link above may not accept your username and password. Please contact your broker for the Gain Futures account portal link connected to your broker.
